

CIBAFI – Ivey Business School Virtual Executive Programme

***Strategic Thinking and Agility in Crisis and Transformation;
Leadership Style, Character, and Grooming***

1 - 5 November 2020

Programme Summary

CIBAFI and Ivey Business School partnership has a superb track record in delivering world-class and highly interactive learning experiences for Islamic Financial Institutions (IFIs) executives across continents. We are delighted to launch our sixth annual joint programme in 2020. This year's programme will focus on two distinct but critically-related topics – (1) strategic thinking and agility as businesses and societies enter the new normal, and (2) how strategies can only be successful if they are enabled by effective leadership style, character, and grooming.

Who Should Attend?

This programme is ideal for Senior Executives and Board Members from Finance and Banking, Strategy and Consulting Industries, as well as members of regulatory bodies. Our functional focus would include but not limited to the following sectors:

- Financial Services
- Risk Management
- Economics
- Banking
- Governance
- Legal and Regulatory
- Product Development Oversight
- Business Strategy/Leadership
- Innovation and Transformation
- Information and Financial Technology
- Shariah Scholars
- Business Owners

Programme Description and Reasons for Attending

This programme is expected to have a strong strategic focus, which is crucial for transformation from functional to strategic leaders in the face of unprecedented change and disruptions, both in businesses and societies. In addition, the programme aims to develop and improve agile leadership in an era of exponential change, which requires executives to hone capabilities for deeper reflection and exposition, to re-engineer mindset as we grapple with the COVID-19 pandemic and post-pandemic changes, and to understand how innovations may be the “game changer” for financial services institutions.

To be an agile leader and organization, we must equally focus on leadership and people issues. This programme will provide an individual assessment of leadership style under normal and stressful conditions, and practical aspects of managing and influencing others with different leadership preferences. The assessment will be reinforced by lessons in activation of various leader character dimensions to manage crisis and the new normal. The final session provides insights into how talent can not only be bred with the appropriate leadership approaches, but also hampered by short-sighted practices that block personal development.

Interactive Case Learning Methodology

The Ivey learning approach is based on learn-by-doing, not just learn-by-listening. What managers truly need does not come in a textbook. It is experiential and intuitive. It is something we call the Ivey Learning Experience. The experience is carefully orchestrated to mirror the business decision-making process and integrate across business disciplines.

Through Ivey's case learning method, participants will be put in the shoes of decision-makers, struggling with real challenges, incomplete or too much information, time limits, people issues and resource constraints. Participants develop a set of skills to effectively analyze issues, develop strategies and execute plans successfully. Leveraging on this renowned application driven case learning approach, this programme is a useful forum for stepping back from the daily business to take a broader and more strategic look at the organization and industry, in order to drive sustainable performance and future growth.
